INTERNATIONAL JOURNAL OF OPTOELECTRONICS

INCORPORATING OPTICAL COMPUTING & PROCESSING

Editors

Professor P. A. Davies, Electronic Engineering Laboratories, University of Kent, Canterbury, Kent CT2 7NT, UK
Professor T. J. Hall, Department of Electrical Engineering, King's College, The Strand, London WC2R 2LS, UK
Dr B. L. Weiss, Department of Electronic and Electrical Engineering, University of Surrey, Guildford, Surrey GU2 5XH, UK

North American Editor

Professor H. S. Hinton, Department of Electrical and Computer Engineering, University of Colorado, Boulder, CO 80309-0425, USA

Pacific Rim Editor

Dr E. H. Li, Department of Electrical and Electronic Engineering, University of Hong Kong, Pokfulam Road, Hong Kong

Book Reviews Editor

Professor A. C. Walker, Physics Department, Heriot-Watt University, Riccarton, Edinburgh EH14 4AS, UK

Editorial Board

Dr I. Andonovic (University of Strathclyde, UK)
Dr T. M. Benson (University of Nottingham, UK)
S. Ishihara (ETL/AIST, Tsukuba, Japan)
Professor H. E. Jackson (University of Cincinnati, USA)
Dr E. Koteles (Institute of Microstructural Sciences, National Research Council of Canada, Ottawa, Canada)
Professor M. J. O'Mahony (University of Essex, UK)
Professor M. P. Petrov (I. F. Ioffe Physico-Technical Instiute of the Russian Academy of Sciences, St Petersburg, Russia)
Professor J. M. Senior (Manchester Metropolitan University, UK)
Professor W. J. Stewart (GEC-Marconi, Towcester, UK)
Professor H. Thienpont (Free University of Brussels, Belgium)
Professor M. G. F. Wilson (University College London, UK)
Professor Zhang Zhipeng (Huazhong University, People's Republic of China)

Volume 9

January 1994 to December 1994

Taylor & Francis
Publishers since 1798

Subscription Information

International Journal of Optoelectronics (ISSN 0952-5432) is published bimonthly by Taylor & Francis Ltd, 4 John Street, London WC1N 2ET, UK.

Annual Subscription 1995: £224, US$370

Second class postage paid at Jamaica, New York 11431. US postmasters: Send address changes to *International Journal of Optoelectronics*, Publications Expediting Inc., 200 Meacham Avenue, Elmont, New York 11003. Printed by Burgess Science Press, Rankine Road, Basingstoke, Hampshire RG24 8PR, UK. The paper used in this publication is 'acid free' and conforms to the American National Standards Institute requirements in this respect.

Dollar rates apply to subscribers in all countries except the UK and the Republic of Ireland, where the pound sterling price applies. All subscriptions are payable in advance and all rates include postage. Journals are sent by air to the USA, Canada, Mexico, India, Japan and Australasia. Subscriptions are entered on an annual basis, i.e. January to December. Payment may be made by sterling cheque, dollar cheque, international money order, National Giro, or credit card (Amex, Visa, Mastercard/Access).

Orders originating in the following territories should be sent direct to the local distributor. **India:** Universal Subscription Agency Pvt. Ltd, 101–102 Community Centre, Malviya Nagar Extn, Post Bag No. 8, Saket, New Delhi 110017. **Japan:** Kinokuniya Company Ltd, Journal Department, PO Box 55, Chitose, Tokyo 156. **USA, Canada and Mexico:** Taylor & Francis, Inc., 1900 Frost Road, Suite 101, Bristol, PA 19007. **UK and all other territories:** Taylor & Francis Ltd, Rankine Road, Basingstoke, Hampshire RG24 8PR.

CONTENTS OF VOLUME 9

NUMBER 1—JANUARY/FEBRUARY 1994

PAGE

Editorial 1

Impact of laser phase noise on the performance of a multichannel optical homodyne PSK system
R. S. Fyath, K. H. Sayhood and G. A. Suheal 3

Programmable diffractive optical interconnections for cellular processing applications
A. G. Kirk, Tomohira Tabata and Masatoshi Ishikawa 13

Models of optical absorption in amorphous semiconductors at the absorption edge—a review and re-evaluation
A. Ibrahim and S. K. J. Al-Ani 25

Invited review. The properties and applications of photosensitive germanosilicate fibre
R. J. Campbell and R. Kashyap 33

Thermodynamic theory of conduction in p–n homojunction and heterojunction structures—Part 1: Interactions of dynamic processes in the presence of photons
M. A. Melehy 59

Surface mode enhanced photocurrent from PtSi/n-Si Schottky barrier detectors
A. Sellai, P. G. McCafferty, P. Dawson, S. H. Raza and H. S. Gamble 65

Optical fuzzy logic processing systems: architectures and applications
Shuqun Zhang and Caisheng Chen 71

Low cost time division multiplexing of identical optical fibre ring intensity sensors
R. Fernández de Caleya, M. López-Amo, and J. A. Martín-Pereda 81

Design and simulation of a fibre-optic edge enhancement network
I. Ahmed and I. Andonovic 89

Optical space frequency analysis for real-time pattern recognition
F. Reichel and W. Löffler 99

Light activated logic element for optical neural network
J. M. Awrach and M. A. Fiddy 111

Book review 119

Forthcoming meetings 121

NUMBER 2—MARCH/APRIL 1994

Guest Editorial 123

Integrated optics at the Laboratoire d'Electronique, de Technologie et d'Instrumentation
P. Mottier 125

PAGE

Sol–gel silica films on silicon substrates
R. M. Almeida 135

Controlled formation of buried-channel waveguides by electron beam irradiation of glassy layers on silicon
J. Lewandowski, R. R. A. Syms, M. Grant and S. Bailey 143

Silica-based star-coupler planar lightwave circuit for passive double-star network
Hisaharu Yanagawa, Takeo Shimizu, Shiro Nakamura, K. Ueki and Isao Ohyama . . . 151

Low-cost $M \times N$ couplers in silica-on-silicon for passive optical networks
M. F. Grant, S. Day, R. Bellerby, P. R. Wensley, S. A. Rosser, G. J. Cannell, I. W. Wilson and N. J. Lambert 159

Recent advances in fibre-to-fibre and fibre-to-waveguide interconnect technology
S. A. Bailey, C. A. Jones, M. W. Nield, K. Cooper, I. P. Hall and A. R. Thurlow . . 171

The hybrid integration of optical and electronic components on silicon
P. Ayliffe, J. Parker, S. Bertolini, T. Clapp, M. Geear, P. Harrison and R. Peall . . . 179

Growth of $Si_{1-x}Ge_x$ heterostructures using gas-source molecular beam epitaxy
N. Ohtani, S. M. Mokler, M. H. Xie, J. Zhang, X. Zhang and B. A. Joyce 193

Electro-optical modulation in $Si_{1-x}Ge_x$/Si and related heterostructures
R. A. Soref and L. Friedman 205

Visible electroluminescence from μc–SiC/porous Si/c–Si p–n junctions
Hidenori Mimura, Toshiro Futagi, Takahiro Matsumoto, Masakazu Katsuno, Yasumitsu Ohta and Koichi Kitamura 211

Forthcoming meetings 217

NUMBER 3—MAY/JUNE 1994

Experimental study of semiconductor laser amplifiers for photonic time and space switching applications
J. Yao and M. J. O'Mahony. 219

LED spectral slicing: modelling of interchannel crosstalk and slice optical power content
J. M. Senior, S. E. Moss and S. D. Cusworth 227

Characterisation of TiO_2–SiO_2 sol–gel films for optical–chemical sensor applications
S. McCulloch, G. Stewart, R. M. Guppy and J. O. W. Norris 235

Effect of concentration-dependent carrier mobility and lifetime on the optically-controlled characteristics of an HEMT device
B. B. Pal, H. Mitra and S. Singh 243

Optical computer with time-, wavelength- and space-division multiplexing
V. P. Torchigin and A. E. Kobyakov. 251

Polarisation-controlled module for reconfigurable nearest-neighbour optical interconnects and image shifting
W. Peiffer, H. Thienpont, M. Pelt and I. Veretennicoff. 263

Design parameters in a fluorescence-based flow sensor scheme using fibre optics
Z. Ghassemlooy, K. T. V. Grattan, D. B. Barras, I. Basarab and N. Farrar 275

PAGE

Thermally-compensated bending gauge using surface-mounted fibre gratings
M. G. Xu, J.-L. Archambault, L. Reekie and J. P. Dakin 281

High efficiency wideband beam-splitter mirror for optical fibre reflectometry
I. Ilev and I. Koprinkov 285

Photosensitivity in planar silica waveguides
G. D. Maxwell, B. J. Ainslie, D. L. Williams, R. Kashyap and J. V. Collins. 289

Forthcoming meetings 295

NUMBER 4—JULY/AUGUST 1994

Coupling characteristics of a twin high-elliptic-core fibre-optic polarization beam splitter
Arun Kumar, R. K. Varshney and Saeed Pilevar 297

Atomic force microscopy studies on various types of photoluminescent porous silicon
V. Grivickas, V. Baranauskas, C. R. Rodriges, P. Basmaji and L. Misoguti 303

Degradation of luminescence and fatigue effects in porous silicon
V. Grivickas, A. Bernussi, P. Basmaji, B. Matvienko and J. Kolenda 311

Analysis of the computational accuracy of the optoelectronic matrix-vector multiplier
S. B. Odinokov and A. V. Petrov 315

Receiver analysis for optical homodyne QPSK transmission systems
R. S. Fyath and K. H. Sayhood 325

Simultaneous optical image processing by photon echoes
S. M. Zakharov and E. A. Manykin 333

Referenced intensity-based optical fibre sensors
G. Murtaza and J. M. Senior 339

Nonlinear distortions of DFB laser diodes due to power-dependent loss and leakage current
Y. C. A. Wong and K. A. Shore 349

Secondary ion mass spectrometry applied to the study of ion-exchanged glass waveguides with a few modes
F. Gonella, F. Caccavale and A. Quaranta 359

Forthcoming meetings 365

NUMBER 5—SEPTEMBER/OCTOBER 1994

Colour recognition by fibre-optic sensing
F. Y. C. Leung and M. S. Demokan 367

Photorefractive materials for real-time processing: cycling behaviour
M. Aguilar, E. Serrano, V. López, M. Carrascosa and F. Agulló-López 379

Asymptotic effective index method to analyse single-mode optical waveguides
S. Fernández, S. L. Palacios, R. D. Crespo, J. M. Fernández, J. Rodríguez and J. Olivares 385

Optoelectronic implementation of a winner-take-all model of hetero-associative memory
S. Bandyopadhyay and A. K. Datta 391

PAGE

Frequency response of four-layer planar optical waveguides for orthogonally polarized modes
V. K. Chaubey and K. K. Dey 399

The effects of material and manufacturing parameters on the performance of Franz–Keldysh Effect Optical Reflection Modulators
M. S. Leeson 405

Reconfigurable architecture based on selective enabling of microlasers
M. Murdocca, J. Battiato, D. Berger, R. Bussjager, P. Cook, H. R. Nahata and T. Stone 415

Spectrally sliced WDM sensor networks: improved topologies to increase sensor numbers
J. M. Senior, S. E. Moss and S. D. Cusworth 425

Book reviews 433

Forthcoming meetings 437

NUMBER 6—NOVEMBER/DECEMBER 1994

The measurement of particle-size distribution using the method of optical incoherent space–frequency analysis
W. Löffler and F. Reichel 441

Accurate measurement of small displacement using optical techniques
K. Weir, A. W. Palmer and K. T. V. Grattan 449

Modular architectures for optoelectronic multistage interconnection networks
F. Kiamilev, E. Stevens, A. V. Krishnamoorthy and S. C. Esener 457

NOR optical logic gate array: fan-in and fan-out measurements
H. Gualous, A. Koster, D. Pascal and S. Laval 471

Guided wave optical switch architectures—Part 1: Space switching
D. K. Hunter and L. Andonovic 477

Application of optical methods of information processing in a supercomputer architecture
V. S. Burtsev 489

Book reviews 505

Author index 511

Call for Papers 515

Forthcoming meetings 517
